

Fish Landing Centres/ Auction halls

The major issues faced by the fisher folk are addressed by developing well sophisticated and constructive infrastructure facilities throughout the coastal stretch of Kerala.

The objectives of the project proposals are:

- To provide facility for proper unloading, cleaning, storing and auctioning the catch.
- To provide good road connectivity to the landing area so that the fast transportation of the landed fish to the markets can be ensured. This will attract more business opportunities
- To provide fish handling, and auctioning facilities designed according to the type of fish landed there
- To reduce post-harvest wastage resulted by inadequate landing and storage facilities in the landing centers.
- To meet the requisites of HACCP and EU norms that is becoming mandatory all over the country very soon.
- To reduce fish losses and economize fishing operations.
- To provide resting place for fishermen and fish vendors
- To ensure safety of the fishermen.
- To ensure the strict compliance of regulation of marine fishing activities.
- To ensure the economic level of the fishing community and fishing village as a whole.
