

Sanitation Facilities

The Department of Fisheries has extended vital sanitation support across the coastal stretch by implementing projects aimed at improving hygiene and public health conditions. This includes the construction of modern public toilets in densely populated fishing areas, fish landing centers, and markets, as well as providing financial and technical assistance for the construction of individual household toilets. These initiatives have played a key role in eliminating open defecation, promoting better sanitation practices, and ensuring a cleaner and healthier living environment for coastal communities.

SI No	Project	Year of Sanction	Outlay (Rs. in lakh)
	Trivandrum		
1	Public toilet at Vettoor fishing village (3 Nos.)	2012-13	15.00
